Walnut/Raisin/Prune Report
State Summary – 2025 Crop Year

California Department of Food and Agriculture

Released: October 20, 2026

Information contained in this report was supplied by handlers of walnuts, raisins, and prunes to fulfill reporting requirements of Sections 55601.7 and 55601.8 of the Food and Agricultural Code.

The report includes all tonnages of walnuts, raisins, and prunes that were either produced by the handler or purchased from producers. The final weighted average price, including bonuses and allowances, has been reported for all contracts which were finalized.

All 2025 crop transactions completed through the close of business on August 31, 2026 are included in this report. A "good faith" estimate of final weighted average price was reported for those contracts which were not final on the same date. The data are shown by major varieties at the State level only.

DEFINITIONS

Producer:
A person or operator who is responsible for the walnuts, raisins, or prunes in the unprocessed state. A dehydrator operator is considered the producer of raisins or prunes if they grew or purchased fresh grapes or prunes and dehydrated them.

Handler:
Firm that processes and markets walnuts, raisins, or prunes.

Finalized Purchases:
Tonnage purchased from producers, for which a pricing contract has been completed.

Non-Finalized Purchases:
Contracted tonnage, for which a final price has not yet been determined.

Free Tonnage:
Tonnage received by a handler, for which the only Federal marketing order regulation is a minimum quality or size standard. Reserve tonnage is the tonnage set aside as authorized by a Federal marketing order.

Weighted Average Price:
Weighted average price reflects prices or "good faith" estimates of prices as reported by handlers and include any bonuses or allowances.

SUMMARY OF WALNUT HANDLERS' REPORTS

Walnuts produced by handlers in 2025 totaled 11,217 tons. This figure does NOT include walnuts purchased from other handlers or producers.

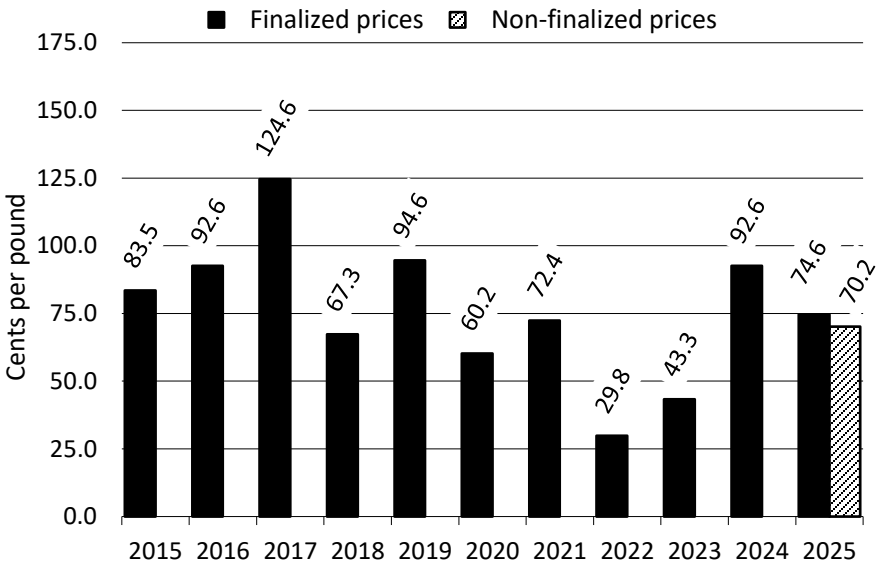

The total 2025 walnut crop purchased from producers, for whom pricing had been finalized, was 768,457 tons with a weighted average price of 74.6 cents per pound. This price is rounded to the nearest tenth of a cent per pound and includes all bonuses and allowances.

Purchases from producers, for whom pricing was NOT finalized, totaled 27,970 tons. The weighted average of the "good faith" final price estimates reported for this tonnage was 70.2 cents per pound.

The quantity of all walnuts purchased from producers was 796,427 tons for the 2025 crop. This figure does not include walnuts produced by the handler or purchased from other handlers.

The tonnage produced by the handler plus tonnage purchased from producers for the 2025 walnut crop was 807,644 in-shell tons.

SUMMARY OF RAISIN HANDLERS' REPORTS

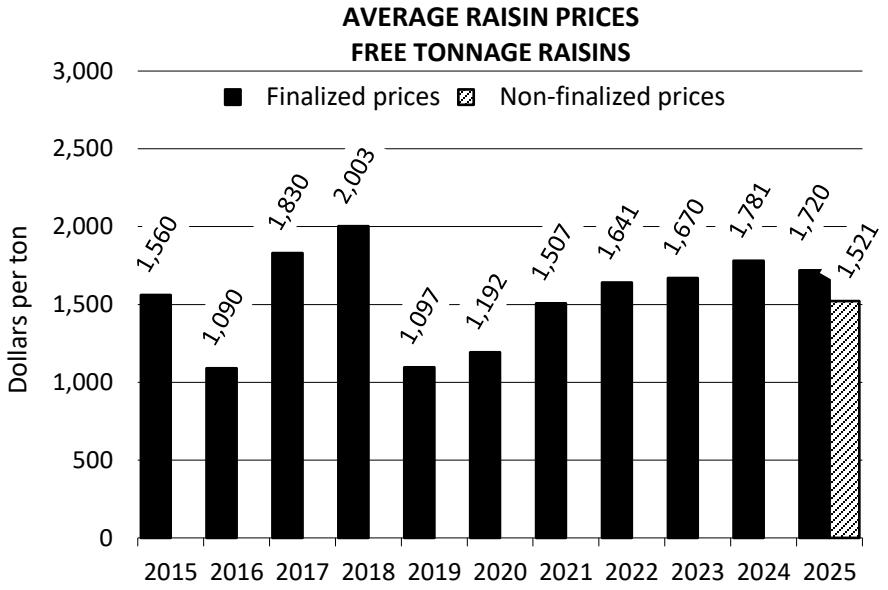

Free raisin tonnage produced by handlers in 2025 totaled 15,413 tons. This figure does NOT include raisins purchased from other handlers or producers.

The total 2025 raisin crop purchased from producers, for whom pricing had been finalized, was 118,602 tons with a weighted average price of $1,720 per ton. This price is rounded to the nearest dollar per ton and includes all bonuses and allowances.

Purchases from producers, for whom pricing was NOT finalized, totaled 103,217 tons. The weighted average of the "good faith" final price estimates reported for this tonnage was $1,521 per ton.

The quantity of all raisins purchased from producers was 221,819 tons for the 2025 crop. This figure does not include raisins produced by the handler or purchased from other handlers.

The tonnage produced by the handler plus tonnage purchased from producers for the 2025 raisin crop was 237,232 tons.

SUMMARY OF PRUNE HANDLERS' REPORTS

Prunes produced by handlers in 2025 totaled 5.641 tons. This figure does NOT include prunes purchased from other handlers or producers.

The total 2025 prune crop purchased from producers, for whom pricing had been finalized, was 32,146 tons with a weighted average price of $1,954 per ton. This price is rounded to the nearest dollar per ton and includes all bonuses and allowances.

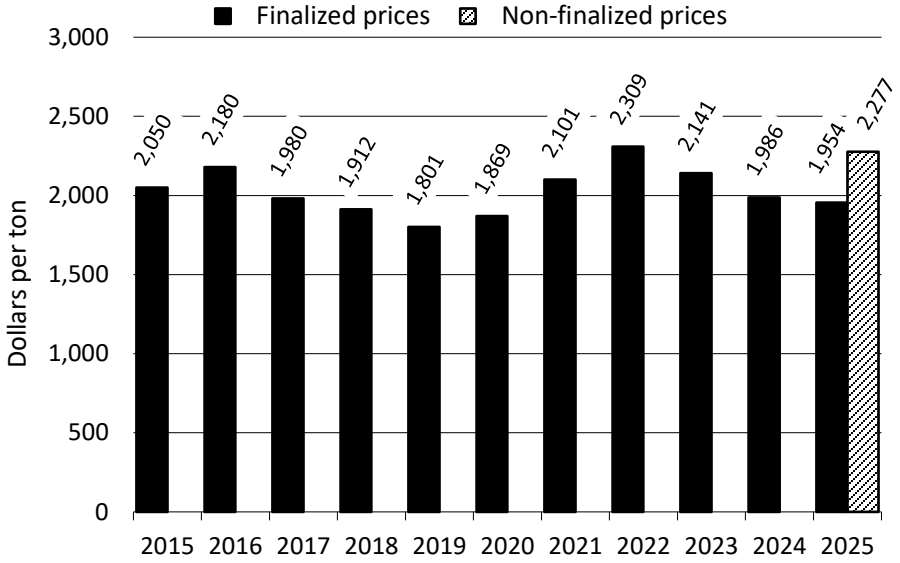

Purchases from producers, for whom pricing was NOT finalized, totaled 38,961 tons. The average of the "good faith" final price estimates reported for this tonnage was $2,277 per ton.

The quantity of all prunes purchased from producers was 71,108 tons for the 2025 crop. This figure does not include prunes produced by the handler or purchased from other handlers.

The weighted average size count of tons purchased from producers was 53 for the French varieties. There were no Non-French varieties reported this year.

The tonnage produced by the handler plus tonnage purchased from producers for the 2025 prune crop was 76,748 tons of French prunes and no tons of Non-French prunes.
